METALLURGIA

THE BRITISH JOURNAL OF METALS

Index to Vol. XVI.

May, 1937—October, 1937.

KENNEDY PRESS LIMITED
21, Albion Street
GAYTHORN, MANCHESTER 1

INDEX

A

Page

Alloying Elements, on Steel, The Influence of 5–6
Aluminium in the Nitric-acid Industry 8
Alloys, Free-cutting Light 25–27
Anodic-oxidation of Aluminium Alloys, Deterioration of Chromic-acid Baths used for 32
Aircraft Structures and Materials.. 37
Aluminium Alloys, Electric Furnaces for. By G. B. Lamb, B.Sc., A.C.G.I. 39–41
Annual Meeting of American Society for Testing Materials 42
Aluminium Development in Switzerland 46
Applying Atomic and Kinetic Theory in a Quantitative Manner to Metallurgical Problems 96–97
Anodic Treatment of Hiduminium Alloys 98
Alloy Bearings, Development of Light 103
Application of Modern Microscopes in Metallurgy, The. By Dr.-Ing. A. Salmony 115–117
American Society for Testing Materials 129–130
Alloys, Manufacture and Characteristics of Hiduminium RR. By J. Towns Robinson. Part I..131–134
Alloys, The Fatigue Resistance of Lead and Lead 136
Annealing Furnace for Aluminium-alloy Billets, Electric 180
Aero Engine, Metallurgy and the. By D. R. Pye, C.B., M.A., D.Sc., F.R.S. 181–183
A Continuous Hardness Test. Periodic Hardness Fluctuations. By E. G. Herbert, B.Sc., M.I.Mech.E. 184–186
An Oil Strainer for Oil-fired Furnaces 200
Alloys, Manufacture and Characteristics of Hiduminium RR. By J. Towns Robinson. Part II..201–204
Aluminium-magnesium Alloys, The Microstructure of. By E. Mockel 209–211
Alloy Steels, Inclusions in 215–216

B

Brittleness, Steel Pickle. By Richard Saxton 23–24
Baths used for Anodic Oxidation of Aluminium Alloys, Deterioration of Chromic-acid 32
Ball and Roller Bearings, Corrosion Wear in 42
British Foundrymen, Institute of..55–64
Bearings, Development of Light Alloy 103
Bearings in Mill Housings and Gearboxes, Roller 118
Blast-furnace Field Tests 164
Billets, Electric Annealing Furnace for Aluminium, Alloy 180
Blast-furnace Slag, Foamed..... 187
Brasses and Bronzes Available to the Engineer, High-duty. By F. Hudson 195–198

C

Page

Canada, Discovery of Radium in .. 6
Copper, Orientation in Rolled 31
Chromic-acid Baths used for Anodic Oxidation of Aluminium Alloys, Deterioration of 32
Corrosion Wear in Ball and Roller Bearings 42
Cast Iron, Some Heat-treatments of Whiteheart Malleable. By J. V. Murray 47–50
Corrosion Problem. The Engineer and the. By F. Hudson. Part I 51–54
Casting of Metals, Physical Factors in the. By Dr. C. H. Desch, F.R.S. 65–66
Causes of Trouble in Heat-treatment 78
Copper Castings Alloyed with Zirconium and Beryllium, Heat-treated 83–84
Copper, Lead and Zinc—Production and Consumption, Survey of.... 84
Corrosion Problem and the Engineer, The. By F. Hudson. Part II..85–88
Congress, The International Foundry 91–95
Canning Practice and Control 102
Chemical Industry, Society of the 107
Cast Iron in Different Types of Furnaces, The Melting of Grey 119–121
Chloride Solutions, Variations in the Initial Corrosion Rate of Mild Steel in 121
Comparison of Methods for the Determination of Oxygen in Steels 123–124
Characteristics of Hiduminium RR Alloys, Manufacture and. By J. Towns Robinson. Part I....131–134
Cavitation Erosion of Metals ..135–136
Continuous Hardness Test. Periodic Hardness Fluctuations. By E. G. Herbert, B.Sc., M.I.Mech.E. 184–186
Causes of Trouble in Heat-treatment. By F. W. Chubb 199–200
Characteristics of Hiduminium RR Alloys, Manufacture and. By J. Towns Robinson. Part II ..201–204

D

Developing Special Steels 1–5
Discovery of Radium in Canada.... 6
Düsseldorf Exhibition, Opening of the 8
Deterioration of Chromic-acid Baths used for Anodic Oxidation of Aluminium Alloys 32
Determination of Working Time on a Steckel Mill, The. By A Special Correspondent 43–44
Development in Switzerland, Aluminium 46
Dorman Long's Developments....73–78
Different Types of Furnace, The Melting of Grey Cast Iron in. By S. E. Dawson.....81–82
Development of Light Alloy Bearings..... 103
Different Types of Furnaces, The Melting of Grey Cast Iron in. By S. E. Dawson.....119–121
Determination of Oxygen in Steels, Comparison of Methods for the 123–124
Developments and the Technical Institutes, Metallurgical 143

Page

Direct Blast Smelting of Poor Gold Residues. By C. C. Downie 205–207
Desulphurising and Refining Blast-furnace Iron with Sodium Carbonate.....217–218

E

Electroplate Finishes for Iron and Steel Components, Nickel and Zinc. By E. E. Halls 9–11
Electric Furnaces for Aluminium Alloys. By G. B. Lamb, B.Sc. 39–41
Engineer and the Corrosion Problem, The. By F. Hudson 51–54
Effective Use of Metal-cutting Tools 90
Electrodeposits, Measuring the Thickness of 97–98
Erosion of Metals, Cavitation ..135–136
Engineering and Marine Exhibition 173–180
Electric Annealing Furnace for Aluminium Alloy Billets 180
Elements in Steel, Non-metallic... 208

F

Finishes for Iron and Steel Components, Nickel and Zinc Electroplate. By E. E. Halls 9–11
Flow of Metals, The 24
Free-cutting Light Alloys 25–27
Furnaces for Aluminium Alloys, Electric. By G. B. Lamb, B.Sc. 39–41
Foundry Personnel, The. Its Recruitment..... 45
Foundrymen, Institute of British 55–64
Factors in the Casting of Metals, Physical. By Dr. C. H. Desch, F.R.S. 65–66
Foundrymen Visit Midland Works 67–69
Furnaces, The Melting of Grey Cast Iron in Different Types of. By S. E. Dawson Part I 81–82
Foundry Congress, The International 91–95
Furnaces, The Melting of Grey Cast Iron in Different Types of. By S. E. Dawson. Part II 119–121
Fatigue Resistance of Lead and Lead Alloys. The 136
Failure of High-speed Steel, Prevent-the. By L. Sanderson 139–140
Furnace for Aluminium Alloy Billets, Electric Annealing 180
Field Tests, Blast-furnace 164
Foamed Blast-furnace Slag 187
Furnaces, an Oil Strainer for Oil-fired 200

G

Grey Cast Iron in Different Types of Furnaces, The Melting of. By S. E. Dawson. Part I 81–82
Gearboxes, Roller Bearings in Mill Housings and 118
Grey Cast Iron in Different Types of Furnaces, The Melting of. By S. E. Dawson. Part II.....119–121
Gold Residues, Direct Blast-furnace Smelting of Poor. By C. C. Downie.....205–207
Growth of Metal Consumption in the U.S.S.R. 214–215

E. Eng. Lib.
Chem. Eng.

H

Page

Heat-treatment of Structural Steel, The. Some Practical Considerations. By Loxley 12–14
Heterogeneity of Steel Ingots, The 21–22
Heat-resisting Materials 28
Heat-treatments of Whiteheart Malleable Cast Iron, Some. By J. V. Murray 47–50
Heat-treatment, Causes of Trouble in 78
Heat-treated Copper Castings Alloyed with Zirconium and Beryllium 83–84
Hiduminium Alloys, Anodic Treatment of 98
Hiduminium RR Alloys, Manufacture and Characteristics of. By J. Towns Robinson. Part I.. 131–134
High-speed Steel, Preventing Failure of. By L. Sanderson 139–140
Hardness Test, A Continuous. Periodic Hardness Fluctuations. By Edward G. Herbert, B.Sc., M.I.Mech.E. 184–186
High-duty Brasses and Bronzes Available to the Engineer. By F. Hudson 195–198
Heat-treatment, Causes of Trouble in. By W. F. Chubb 199–200
Hiduminium RR Alloys, Manufacture and Characteristics of. By J. Towns Robinson. Part II.. 201–204

I

Influence of Alloying Elements on Steel, The 5–6
Imperial and International Prosperity 7
Iron and Steel Components, Nickel and Zinc Electroplate Finishes in. By E. E. Halls 9–11
Iron and Steel Institute, The.... 15–21
Ingots, The Heterogeneity of Steel 21–22
Iron, Some Heat-treatments of Whiteheart Malleable Cast. By J. V. Murray 47–50
Institute of British Foundrymen, The 55–64
Iron in Different Types of Furnaces, The Melting of Grey Cast. By S. E. Dawson. Part I..... 81–82
International Foundry Congress, The 91–95
Iron in Different Types of Furnaces, The Melting of Grey Cast. By S. E. Dawson. Part II 119–121
Initial Corrosion Rate of Mild Steel in Chloride Solutions, Variations in the 121
Institute of Metals, The..... 144–148
Iron and Steel Institute, The .. 157–163
Industries of Canada, The Non-ferrous Metal-smelting and Refining 213
Inclusions in Alloy Steels 215–216

K

Kinetic Theory, Applying Atomic and Kinetic Theory in a Quantitative Manner to Metallurgical Problems 96

L

Light Alloys, Free-cutting..... 25–27
Lead and Zinc Production and Consumption, Survey of Copper 84
Light Alloy Bearings, Development of 103
Lead Alloys, The Fatigue Resistance of Lead and 136
Largest Ingot ever produced in this Country 198

M

Page

Metals, The Flow of 24
Materials, Heat-resisting 28
Materials, Aircraft Structure and.. 37
Materials, Annual Meeting of American Society for Testing 42
Mill, The Determination of Working Time on a Steckel. By a Special Correspondent 43–44
Malleable Cast Iron, Some Heatments of Whiteheart. By J. V. Murray 47–50
Metals, Physical Factors in the Casting of. By Dr. C. H. Desch, F.R.S. 65–66
Midland Works, Foundrymen Visit 67–69
Melting of Grey Cast Iron in Different Types of Furnaces, The. By S. E. Dawson. Part I..... 81–82
Metal-cutting Tools, Effective Use of 90
Metallurgical Problems, Applying Atomic and Kinetic Theory in a Quantitative Manner to..... 96
Measuring the Thickness of Electrodeposits 97–98
Material Problems in the Iron and Steel Industry, Raw 113–114
Modern Microscopes in Metallurgy, The Application of. By Dr. Ing. A. Salmony 115–117
Melting of Grey Cast Iron in Different Types of Furnaces, The. By S. E. Dawson. Part II. 119–121
Mild Steel in Chloride Solutions, Variations in the Initial Corrosion Rate of 121
Methods for the Determination of Oxygen in Steels, Comparison of 123–124
Materials, American Society for Testing 129–130
Manufacture and Characteristics of Hiduminium RR Alloys. By J. Towns Robinson. Part I 131–134
Metals, Cavitation Erosion of .. 135–136
Metallurgical Developments and Technical Institutes 143
Metals, Institute of..... 146–148
Marine Exhibition, Engineering and 173–180
Metallurgy and the Aero Engine. By D. Pye, C.B., M.A., D.Sc., F.R.S. 181–183
Motor Show, The 193
Manufacture and Characteristics of Hiduminium RR Alloys. By J. Towns Robinson. Part II.... 201–204
Microstructure of Aluminium-magnesium Alloys, The. By E. Mockel 209–211
Metal Smelting and Refining Industries of Canada, The Non-ferrous 213
Metal Consumption in the U.S.S.R., Growth of 214–215

N

Nitric-acid Industry, Aluminium in the 8
Nickel and Zinc Electroplate Finishes for Iron and Steel Components. By E. E. Halls..... 9–11
Notable Sheffield Works, Some.. 149–156
New Solutions of Old Problems. (Follsain Processes)..... 189–191
Non-metallic Elements in Steel.... 208
Non-ferrous Metal Smelting and Refining Industries of Canada, The 213

O

Opening of the Düsseldorf Exhibition, The 8
Orientation in Rolled Copper 31
Oxygen in Steels, Comparison of Methods for the Determination of 123–124
Old Problems, New Solutions of 189–191
Oil Strainer for Oil-fired Furnaces, An..... 200

P

Page

Pickle Brittleness, Steel. By R. Saxton 23–24
Physical Factors in the Casting of Metals. By Dr. C. H. Desch, F.R.S..... 65–66
Porosity of Sprayed Coatings and Its Measurement. By E. C. Rollason, M.C. 125–128
Problems, New Solutions of Old 189–191
Poor Gold Residues, Direct Blast-smelting of Poor. By C. C. Downie 205–207

R

Radium in Canada, The Discovery of 6
Rolled Copper, Orientation in..... 31
Roller Bearings, Corrosion Wear in Ball and 42
Research and Industrial Progress. (Work of the N.P.L.) 79–80
Road Transport Vehicles, Spring Production for 109–112
Researches, Some Tin..... 112
Raw Material Problems in the Iron and Steel Industry 113–114
Roller Bearings in Mill Housings and Gearboxes 118
Reliability of Some Thermocouples, The 124
RR Alloys, The Manufacture and Characteristics of Hiduminium. By J. Towns Robinson. Part I 131–134
Resistance of Lead and Lead Alloys to Fatigue..... 136
RR Alloys, Manufacture and Characteristics of Hiduminium. By J. Towns Robinson. Part II.... 201–204
Refining Industries of Canada, The Non-ferrous Metal Smelting and 213
Refining Blast-furnace Iron with Sodium Carbonate, Desulphurising and 217–218

S

Special Steels, Developing..... 1–5
Steel, The Influence of Alloying Elements on 5–6
Steel Components, Nickel and Zinc Electroplate for Iron and. By E. E. Halls..... 9–11
Structural Steel, The Heat-treatment of, Some Practical Considerations. By Loxley 12–14
Steel Ingots, The Heterogeneity of 21–22
Steel Pickle Brittleness. By Richard Saxton 23–24
Sulphur Recovery Processes 28
Steckel Mill, The Determination of Working Time on a. By A Special Correspondent 43–44
Switzerland, Aluminium Development in 46
Some Heat-treatments of Whiteheart Malleable Cast Iron. By J. V. Murray 47–50
Survey of Copper, Lead and Zinc Production and Consumption.... 84
Stainless Steels, Their Composition for Industrial Purposes..... 89–90
Society of Chemical Industry, Annual General Meeting..... 107
Spring Production for Road Transport Vehicles 109–112
Some Tin Researches 112
Steels, Comparison of Methods for the Determination of Oxygen in.. 123–124
Some Thermocouples, The Reliability of..... 124
Steel, Preventing Failure of High-speed. By L. Sanderson.... 139–140
Some Notable Sheffield Works.. 149–156
Slag, Foamed Blast-furnace..... 187
Solutions of Old Problems, New 189–191
Smelting of Poor Gold Residues, Direct Blast 205–207
Steel, Non-metallic Elements in.... 208
Steels, Inclusions in Alloy..... 215–216
Strength of Tin-base Bearing Alloys 211
Sodium Carbonate, Desulphurising and Refining Blast-furnace Iron with 217–218

T

Page

Testing Materials, Annual Meeting of American Society for 42
Tools, Effective Use of Metal-cutting 90
Thickness of Electrodeposits, Measuring the 97–98
Transport Vehicles, Spring Production for Road 109–112
Tin Researches, Some 112
Thermocouples, The Reliability of Some 124
Testing Materials, American Society for 129–130
Technical Institutes, Metallurgical Developments and 143
Tin-base Bearing Alloys, Strength of 211
Trouble in Heat-treatment, Causes of. By W. F. Chubb 199–200

U

Ural-Kuznetsk Combine. By A Special Correspondent 101–102
U.S.S.R., Growth of Metal Consumption in the 214–215

V

Visit to Thos. Firth and John Brown, Ltd. 31
Variations in the Initial Corrosion Rate of Mild Steel in Chloride Solutions 121
Verein Deutscher Eisenhüttenleute. (General Meeting) 194

W

Wear in Ball and Roller Bearings, Corrosion 42
Working Time on a Steckel Mill, The Determination of. By a Special Correspondent 43–44
Whiteheart Malleable Cast Iron, Some Heat-treatments of. By J. V. Murray 47–50
Works in the Cleveland District 165–172
Wire Drawing 212–213

Z

Zinc and Nickel Electroplate Finishes for Iron and Steel Components. By E. E. Halls 9–11
Zirconium and Beryllium, Heat-treated Copper Castings Alloyed with 83–84
Zinc Production and Consumption, Survey of Copper, Lead and 84

CORRESPONDENCE.

Heat-treatment of Welds in Work of Special Character 29–30
Heat-treatment and the Component 30–30
Causes of Trouble in Heat-treatment 122

REVIEWS OF CURRENT LITERATURE.

Page

Journal of the Institute of Metals. Vol. LIX. No. 2, 1936 33
The Preservation of Iron and Steel by Means of Paint 33
Symposium on Radiography and X-ray Diffraction Methods 33
French Tinplate and Canning Industries 33
Metallurgy of Lead and Zinc 70
Bearing Metals and Alloys 70
Gases and Metals 137
Patents for Inventions 137
Creep of Non-ferrous Metals and Alloys 138
Catalogues and other Publications 70–106–138
Metallurgists' Manual 219
Photomicrography with the Vickers' Projection Microscope 219

Vanadium Steels and Irons 220
Journal of the Institute of Metals. Vol. LX. No. 1, 1937 220

RECENT DEVELOPMENTS IN MATERIALS, TOOLS, AND EQUIPMENT.

Standard Ferro-chromiums 8
Automobile Spring Heat-treatment Furnaces 99
G.E.C. Electric Furnaces 100
New Electric Heat-treatment Furnace Installation 99–100
Miniature Ball Bearings for Precision Instruments 106
Electric Annealing Furnace for Aluminium-alloy Billets 180

RECENT CONTRACTS.

L.N.E.R. Cloth Orders 36
Wellman Smith Owen Engineering Co., Ltd., to supply two Bridge Erection Cranes for Hooghley River Bridge 36
North British Locomotive Co., Ltd., to supply 100 Locomotive Axle Boxes to India 36
Admiralty Orders for Submarines 36
Caledon Shipbuilding and Engineering Co., Ltd., receive Order for 3,500 tons Vessel 36
Brightside Foundry Co., Ltd., to build new 18-in. Mill for Skinningrove Iron Co., Ltd. 141
Buenos Aires Gt. Southern Railways, Orders for £300,000 Rolling Stock 141
Vickers, Ltd., receive Orders from Great Western Railway for 80-ft. Steel Gates 141
Kendall and Gent (1920), Ltd., Government Orders 141
Vickers-Armstrong, Ltd., to build Aircraft Carrier 141
Steel Rails Orders for North 141
New Suspension Bridge to be built by Dorman Long and Co., Ltd. .. 141
L.M.S. Orders for 180 Bolster Truck Vehicles 221
£5,000,000 Reconstruction Scheme at Messrs. Rd. Thomas and Co., Ltd. 221
